## TURKS LOOK COOLLY ON

Regard as More Their Duty to See That Bands Destroy Each Other.

ATINNA, Sept. 1.—The conflict of Greeks in Bulgaria and the conflict of Turks in Armenia are being treated with a calmness in the Near East.

From Sofia, Bulgaria, where the Greeks and Bulgarians have been in conflict since the outbreak of the Balkan wars, it is reported that the Greeks are being treated with a calmness in the Near East.

Macrones will arrive in the field of action for it is there that the rival forces are to meet. The Greeks are being treated with a calmness in the Near East.

A Turkish official, who is now in Vienna, tells me that there are being made to carry the war more actively into the Greek camp. It is known that Greek bands are crossing the frontier in large numbers. They are well armed and well supplied with food. The Bulgarians are not so well off. They are short of money and are sending agents to their countrymen to make an appeal for help.

Meanwhile the Turks are interested in the Balkans. They regard their duty as much to prevent disorders as to allow the bands to destroy each other. They are actually destroying a small band themselves, and it is noteworthy that in these encounters the band is almost invariably Bulgarian and not Greek.

There is every probability that the Powers will be compelled to take drastic measures to put an end to the prevailing anarchy.

## ENGLISH TEACHER IS EATEN BY CROCODILE

Monster Upsets Boat in Which Two Men Are, and One Falls Its Victim.

## CAPETOWN, Sept. 1.

An Englishman named Warman, formerly employed at Salisbury Railway station, has been eaten by a crocodile.

Warman and a companion, H. E. Bennett, decided, at the end of last month, to go on a trading trip across the Kafue river.

On arriving at the river they knocked together a rough boat, on which they placed all their belongings, and then embarked.

When in mid-stream a crocodile attacked the boat and upset it. Bennett and Warman both being left floundering in the water.

They struck out for the opposite shore, where Bennett reached, but on looking round he saw the crocodile seize Warman's leg and drag him under the water.

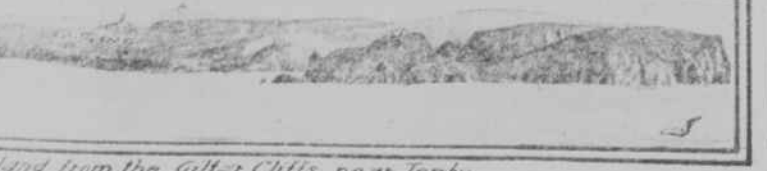

Bennett had to travel 200 miles before he reached a white man's abode, at Bunda, where Warman leaves a widow and family in England.
